Our Cover

This month's cover photo highlights Amateur Radio public service in action. This is the mobile setup of Jerry Clement, VE6AB, at the MS Bike Tour held annually in June in Alberta, Canada. Jerry's Kenwood TM-D710A is connected to the Kenwood Avmap 6 and the netbook running *APRSIS/32*, allowing him to see a complete map view of the route. Also being used for HF APRS is the SCS Tracker visible just above the Kenwood TM-D710A, and connected to both the Kenwood TS-480HX, as well as the Garmin Montana GPS receiver mounted in the stack.
